

## INFORMATION IN ENGLISH

The *School for the Highly Gifted/International School* (abbreviated *hbf/is*) is part of the Heinrich-Heine-Gymnasium in Kaiserlautern and offers a German school education based on Rhineland-Palatinate's curriculum for secondary schools (*Gymnasium*). Therefore, a corresponding qualification as well as a basic command of the German language are required.

The language of instruction in almost all classes is German and our international students are taught together with our highly gifted.

The *hbf/is* supports students with an international background (or who have been abroad with their parents for a number of years) wishing to (re-)integrate into the German school system but we do not offer an international school curriculum, virtual classes, AP classes or the international baccalaureate (IB).

Please note that boarding is only possible during the week. On weekends and during school breaks students travel home.

For more details (in German) please go to:

- Further Information (s. 'Weitere Informationen')
- Application Form (s. 'Aufnahmeverfahren')
- Information on Grades 11-13 (s. 'Oberstufenkonzept')

[This student video project](#) gives you an impression of our school.
